I could leave my office right now, go out on the street and ask the first ten men and women I met if they believe in thrift, and in putting their savings in a safe and reliable bank

Every last person would say they believe in thrift, and at least eight of the ten would agree that a savings account offers the greatest benefits to the saver.

Yet only five out of the ten would have active savings accounts.

Son, it is necessary to ACT in this world.

The way to save money is to SAVE MONEY. Any person who so wills can do it.
